Subject: Certificate of Compliance  
Product: Tinned Copper

We hereby certify that the materials manufactured by Republic Wire, Inc., enumerated and described herein below, are produced under standard commercial processing and testing methods designed to insure that the finished materials comply with the pertinent standards and/or specifications as indicated.

This letter is to certify that Republic Wire, Inc. produces gauge sizes 14 – 750 mcm stranded soft drawn bare copper in accordance with ASTM standards B3 and B8. This material is also in accordance with ASTM standard B33 for tinned copper.

This letter is to further certify that the described material has been manufactured within the United States and are compliant with Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS recast).

Thank You,

Jeremy Rosenbeck  
Vice President of Sales  
Republic Wire, Inc.
