Subject: Certificate of Compliance  
Product: Copper XLP-USE

We hereby certify that the materials manufactured by Republic Wire, Inc., enumerated and described herein below, are produced under standard commercial processing and testing methods designed to insure that the finished materials comply with the pertinent standards and/or specifications as indicated.

We further certify that, when these materials are listed under the Label Service Procedures of the Underwriters Laboratories Inc., the materials bear Underwriters' Laboratories label when shipped from the factory.

Republic Wire Type RHH/RHW or USE-2 gauge sizes 12 thru 750 mcm is in accordance with ASTM specification B3 and B8 (stranded where applicable) as well as UL specifications 44 & 854. This material is sunlight resistant.

This letter is to further certify that the described material has been manufactured within the United States and are compliant with Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS recast).

Thank You,

Jeremy Rosenbeck  
Vice President of Sales  
Republic Wire, Inc.
